

DWDM Fiber SFP

BENEFIT AND KEY FEATURE

High compatible, multi connectors, cost effective are major benefits of SFP series products. ECM offers a methodology for network operators to maximize operational efficiently by selecting one transceiver that works reliably across multiple switch, router, chassis (blade) platforms.

We also provide customized service to meet different environment. You may have each inquiry discussion, such as data rate, wavelength, temperature, power budget, laser, connector, application, etc.

TECHNICAL SPECIFICATION

STANDARD COMPLIANCE

RoHS compliance; UL, cUL, CDRH certificate
Compliant with SONET/SDH optical standards
Low Power Dissipation

DATA RATE & APPLICATION

Fast Ethernet(125Mbps), Gigabit Ethernet(1.25Gbps)
SONET OC-3 / OC-24 / OC-48
Support data rate up to 4.25Gbps
DWDM Networking
Duplex Fiber cable

DISTANCE

40km / 80km

CONNECTOR

LC / SC

TEMPERATURE

0 ~ 70 °C / -40 ~ 85 °C

WARRANTY SERVICE

Standard 2 years
Customized warranty available
